WEBSITE
WENINGERCONSTRUCTION.COM

Weninger Construction & Design is a custom design builder in the Okanagan. Family-operated, award-winning and celebrating 30 years in business, WCD builds with longevity and legacy in mind. Known for high-quality handcraftsmanship and custom millwork, their homes and projects are creative, innovative and tailored to exceed expectations.

The process begins with situating the building to optimize views and finishes with excellent functionality, providing more than their clients could have envisioned. WCD takes care to design spaces to suit each client's specific needs, offering 3D design service with walk-throughs, before breaking ground. With an ability to create extraordinary elements in any space, features are carefully designed and customized. WCD's extensive experience in all phases of construction, including development processes, provides invaluable guidance to their clients.

Challenging terrain and unique builds, whether commercial or residential, is where we shine. Our online management software allows even long-distance clients to be fully informed and as involved as they choose.

- Business Manager & Lead Designer, Pauline Weninger, Weninger Construction & Design Ltd

Client satisfaction is the underlying mission of each project and WCD's committed team, including sub-trades, who work together in this client-focused atmosphere. Clients are the top priority and well taken care of by talented managers throughout the design and construction process.

Providing excellent workmanship and ongoing customer service since 1989, Weninger Construction will help their clients realize their dreams!
